As a dedicated MERN stack developer with 2+ years of experience in frontend development. Proficient in HTML, CSS, JavaScript, and React.js for crafting user interfaces. Skilled in building robust backend systems with Node.js and Express.js, and adept in MongoDB for database management. Equipped with Git version control, I'm driven to create visually appealing user experiences in MERN stack development.

WORK EXPERIENCE

Web Developer

Greynium Technologies – Bengaluru

January 2024 – Present

- Designed and implemented user interfaces using HTML and custom CSS to enhance the usability of responsive UI elements and improve overall user experience.
- Enhanced web application performance and interactivity by implementing front-end functionality using JavaScript, leveraging asynchronous programming and ES6.
- Utilized JSON data formats to integrate with rest API for data retrieval and DOM manipulation.
- Utilized the Versioning tool and collaborated with team members using GIT.

HTML Developer

RR Donnelley – Chennai

January 2022 – November 2023

- Developed responsive web applications using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and accessibility.
- Implemented front-end functionality using JavaScript including asynchronous programming, ES6 resulting in improved web application performance and interactivity.
- Collaborated with designers and project managers to create user-friendly interfaces and enhance website functionality.

Medical Record Reviewer

Rapid care – Chennai

June 2018 – December 2021

- Conducted detailed medical record reviews for compliance with regulations, coding guidelines, and documentation requirements.

Virtual Scribe

S10 Healthcare – Chennai

August 2017 – February 2018

- Collaborated with healthcare professionals, offering real-time assistance during patient encounters.
