PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building responsive, user-friendly web applications using HTML5, CSS3, JavaScript, TypeScript, and the React.js ecosystem. Delivered engagement-driven experiences for high-traffic media sites and micro-frontend-based enterprise interfaces for banking platforms. Skilled in Node.js, Express.js, and MongoDB for building REST APIs and full stack features. Experienced in developing reusable UI components, REST API integration, and cross-browser optimization, collaborating with cross-functional teams to deliver scalable solutions.

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
Backend & Database: Node.js, Express.js, MongoDB, RESTful APIs
Tools & Practices: Git, Azure DevOps (CI/CD Deployments), Agile, Responsive Design, Web Accessibility

WORK EXPERIENCE

Software Engineer – Frontend **March 2026 – Present**

Capgemini (Client: Standard Chartered Bank) *Bengaluru, India*

- Designed and developed responsive, user-centric interfaces for the ESG module using React.js and a micro-frontend architecture, building reusable, independently deployable components that enable modular development, faster releases, and scalable delivery in collaboration with UX/UI designers.
- Integrated RESTful APIs using JSON data formats for efficient data retrieval and dynamic DOM manipulation, ensuring seamless data flow between the frontend and backend services.
- Debugged and resolved issues during the application migration from OCP to a Standard Kubernetes environment, enabling smooth and reliable production releases.
- Contributed to release deployments in Azure DevOps by merging code to release branches and triggering CI/CD pipelines, collaborating with backend, QA, and infrastructure teams to ensure stable releases.

Software Engineer – Frontend **January 2024 – March 2026**

Greynium Technologies *Bengaluru, India*

- Built responsive, accessible, cross-browser user interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js, with a focus on performance and robust asynchronous behavior.
- Developed UI for high-traffic pages using data-driven content prioritization based on user trends, increasing user engagement by 25%.
- Partnered with product managers and UI/UX designers to translate business goals, user behavior data, and ad placement strategies into functional UI solutions.
- Consumed REST APIs and handled asynchronous data flows to render dynamic, real-time content across pages.
- Debugged and fixed UI/UX issues using Chrome DevTools and React DevTools, improving application stability and usability.

HTML Developer **January 2022 – November 2023**

RR Donnelley *Chennai, India*

- Built responsive, accessible web pages with HTML, CSS, and JavaScript, ensuring cross-browser compatibility while working closely with designers to improve UI quality.
- Delivered end-to-end email templates for KPMG, ensuring consistent rendering across email clients and platforms.

EDUCATION

Alpha College of Engineering **2013 – 2017**

B.Tech in Information Technology *Chennai, India*

ACHIEVEMENTS

- Best Performer of the Year – Greynium Technologies.
- Best Quarterly Performer and Monthly Spark – RR Donnelley.
